Medicated Well-Water.

A specific for DYSPEPSIA and
DISEASES OF THE KIDNEYS.

Has been used with most gratifying success in many obstinate cases. Prof. F. W. Clark, professor of Chemistry at the University of Louisville, has made the change to the same class with that of the Allegheny springs, or Vicksburg, and it is well known to be stated here.

Those who desire to try this famous water should apply to the proprietors, Dr. and Mrs. C. M. Stollway, Cincinnati, Ohio, or Dr. C. M. Stollway, Louisville, Kentucky.

THE DAILY BULLETIN.

SATURDAY EVENING, JAN. 5, 1864.

17,601.

The above number represents the circulation of this newspaper, which is the largest in the state. Advertisers are invited to call and advise themselves of the truth of the statement, and to have no doubt in their mind that our name for advertising are the lowest.

The Democratic members of the Legislature will caucus next Tuesday for United States Senator.

BURCHARD, Director of the mint, says there are from five to six million dollars still in the hands of the people as distinguished from speculation.

Opposition was raised in the Maryland Legislature to Rev. Mr. Hodges taking his seat as a member, on the ground that he is rendered ineligible by being a minister of the Gospel.

The concession granted by the Mexican Government to General Grant for a submarine cable has been declared forfeited, no work having been done on the line within the prescribed time.

CHOLERA still lingers in Egypt. The number of deaths during the summer was twice as great as was reported. In some of the villages in the interior a majority of the laboring people died. The whole number of deaths is estimated at seventy thousand.

The leaders of the Ohio Democracy have devised a plan for wiping out the Scott law, without giving offense to the temperance people. They will substitute for it a law grading the tax from \$50 to \$300. As taxation in that State must be uniform, the new law will be found unconstitutional, which is the end desired.

Gov. KNOTT's message is an able document and is favorably received by the press. Referring to the Railroad Commission he suggests that their field of work be enlarged or their duties assigned to some of the other State offices, which we take to be a recommendation to abolish a costly State sinecure. The suggestion is well received.

Gov. KNOTT, in his message to the Legislature, indignant denies that human life is held in slight regard in this State. He says the general belief that murders or unprovoked assaults are more frequent in Kentucky than elsewhere is utterly untrue, as can be shown by criminal statistics. He is induced to make this statement because the fashionable false hood regarding the frequency of murder in Kentucky prevents strangers settling in the State.

The Yeoman, says: Invitations are out for the marriage of Miss Fannie Owens, and Mr. E. R. Blaine, both of Maysville. The bride-expectant is the charming daughter of Col. Frank S. Owens, and has a wide circle of friends in Frankfort. The bridegroom is a son of the late S. L. Blaine, who for many years was a prominent and respected citizen of that place, and of near kin to ex-U. S. Senator James G. Blaine. He is a young man of sterling qualities, universally liked, and entirely worthy so notable and beautiful a bride. The marriage will take place at the Baptist Church, Maysville, at five o'clock p. m., January 9th.

Attention Mayhillians,

Lexington Daily News.

Bob Vaughn, a negro, was crushed to death the other day at Owingsville, by a hog falling on him.

Barbara Frisch's clock is sold to be in existence yet, with its hands fixed at ten o'clock, the hour at which its pedestal was shot away by a soldier's bullet. Its final destination will be the Smithsonian Institution.

A Submerged Prehistoric Settlement.

The shrinkage of Tulara lake, Cal, uncovered a prehistoric settlement, stone buildings, traps, and other evidences of occupation by an unknown race, being clearly defined as the water subsided.

A tribe of Indians having tails from six to eight inches in length is said to have been discovered in Paraguay. Should this announcement prove true, the Journal of science protests in advance against their being paraded as "the thinnest tailers," since the anthropoid apes have no tails.

A Mexican boy fell into a well about fifteen feet deep and containing nine feet of water. The mother jumped in to save the boy, the grandmother followed suit to rescue her daughter, and the great-grandmother was in the act of going over to help when the children, who were all saved by one man. All this is said to have transpired in Encinal county.

A Chicago Beauty.

From the Chicago News.

A female mineral company now performing in this city advertises as one of its attractions the most beautiful woman in the world. We are sorry to say that this lovely female on the billboards, we are enabled to say that she is about seven feet tall, has yellow hair, green eyes, blue legs, lavender arms, and bonny fingers. If this height degree reliable, this lady is, if not the most beautiful woman in the world, the most diversely and elaborately ornate creature we have ever had occasion to note.

A Thieving Postal Clerk Arrested.

NEW YORK, Jan. 4.—Frank Barker, a clerk in the Post Office, has been arrested on a charge of robbing the mail. It appears that hundred of letters passing between here and Port Jervis were dexterously opened on the edge of the right hand, and the contents of the same so that through the opening it could be seen whether or not the letter contained money. If it did not it was forwarded in its destination. If it did, the entire envelope was taken and laid aside. A watch was set for Barker, and on Wednesday night, while on his way to Port Jervis, in the night mail car, he was seen to open a letter and then slip it in his pocket. He was taken in custody and the letter was found to contain \$60 and stamps. Barker thereupon made a full confession of his guilt, and said that his employer had given him the right to do as he pleased.

He was held in \$4,000 for trial.

A Valuable Man for Either Company.

PHILADELPHIA, Jan. 4.—John E. Stewart, of the Atlantic Telegraph, was in the country, and prominently identified with General Robert and Mr. Gould in the Atlantic & Pacific Telegraph Union, and the Atlantic Telegraph Company. He has severed his connection with the latter-named Company and entered upon the duties of General Manager of the Baltimore & Ohio Telegraph Company. He has been induced to do this, by the fact that Mr. Bates has entered the service of the Baltimore and Ohio Company in the interest of the Western Union, although this is an open secret. The Western Union officials, who say that Mr. Bates' withdrawal from the Western Union was sudden and unexpected.

The concession granted by the Mexican Government to General Grant for a submarine cable has been declared forfeited, no work having been done on the line within the prescribed time.

Another Railroad Commission.

ENNE, Pa., Jan. 4.—A frightful accident occurred on the Erie & Pittsburg Railway yesterday, at Newgate, Pa. The mail train from Erie, running very swiftly, struck a freight train, which had been standing on the road about a mile. A lot of stones were wedged into the frog and between the rails in such a manner that the 11:40 A. M. train, when it arrived at that point, would be derailed. The engineer, Mr. Gable, however, by the engineer in time to save the train. This is the third time this attempt has been made.

Don't Look Well for the Plaintiff.

PHILADELPHIA, Pa., Jan. 4.—The Madame Carlisle and Mrs. Thomas case, for attempted murder, was settled by the Court this day.

Neither the defendant nor the prosecuting witness was present. The case has had a bad look for the alleged victim of the attempted abduction. The case was concluded, and the attachment was issued. The Prosecuting Attorney is determined to bring the case to trial.

THE DAILY BULLETIN.
SATURDAY EVENING, JAN. 5, 1884.

ROSSER & McCARTHY,
Publishers and Proprietors,
TO WHOM ADDRESS ALL COMMUNICATIONS

On Monday night
At set of sun,
Be sure to see
The work well done.
Then Monday night
For a good time,
That hogs and dogs
Have had their day.

No hogs.
No worthless curs.

Vote against keeping worthless dogs
within the city limits.

Vote against the hog and the dog.
"Turn the rascals out."

If you are opposed to hog breeding in
Mayville at the expense of the public,
vote against the annoying nuisance.

The hog and dog propositions are to
be voted upon separately, and separate
columns are ruled for the purpose on the
poll books.

The Eagle Plow Works are now run-
ning day and night, consequence of
large orders for plows received recently
from the South.

Mrs. RACHAEL BALL, wife of Benjamin
Ball, deceased, was found dead in her
bed at her home, near this city, on Fri-
day. She was about seventy years of age.

You will have the opportunity, on
Monday, of saying whether you are an
advocate of cleanliness and health or of
fith and disease, when you vote for or
against the hog.

Go to the polls on Monday and vote
against the hog and the dog also. This
is a duty that the true friends of the
town expect of every man who calls
himself a good citizen.

The gentleman who has made the
proposition concerning the removal of
garbage lives in this city, and we have
every reason, to believe that he is pre-
pared to do exactly what he proposes.

A VOTE for the hog and dog is a vote
approving the cowardice of the city
council in dodging their duty by submit-
ting the question to the people, many of
whom are directly interested in hog
breeding in the city.

If you fail to abolish the hog nuisance
at the election on Monday, you may re-
ly upon its being ten times worse during
the coming year, for there will be a
larger number of persons engaged in the
business of breeding.

The Mt. Sterling Daily Sentinel says:
Mr. Clark, the Mason county man who
bought the John L. Terry farm near Bald
Eagle, sold his crop of eight acres of to-
bacco to F. M. Berry at 20 cents per
pound. It is thought the crop will yield
Mr. Clark over \$300 per acre.

Mr. CHARLES C. DOWNS has returned
to Mayville and will move in the resi-
dence on Third street lately occupied by
Mr. A. H. Thompson. Mr. Downe will
take an interest in the business of
Messrs. W. B. Mathews & Co. His old
friends are glad to welcome him back.

There is not the slightest doubt that a
majority of the people are opposed to
permitting hogs and dogs in the city
limits. It is therefore in their power to
abate the nuisance by going to the polls
on Monday and voting against it. It will
be their fault if the proposition fails
to carry.

The following marriage licenses have
been recorded in Brown county, Ohio,
since our last report:

Ben. Baker and Grace Cramberland,
Richard M. Paton and Sarah J. Watson,
A. L. and Anna C. Watson,
L. O. Dohm and Anna E. Kennedy,
C. S. McFadden and Mary E. Watson,
H. A. Brooks and Mary Ward,
C. H. Crawford and Eva J. File,
H. C. and Anna E. Hart,
George O. Crouch and Gertrude.

The weather station is one of the best in-
ventions of the age to promote comfort
and save fuel. They are a low priced
article and can be applied by anybody.
If you will once use them you will be
surprised that you have not done so before.
Try them. If you want to keep
warm this cold weather. They may be

Mr. W. R. FRAZER, architect and de-
signer, has shown us the plan of a hand-
some opera house which he thinks some
enterprising citizen ought to erect in
Mayville. It is sixty-six feet wide and
one hundred and twenty seven feet deep,
and is a conveniently arranged building,
and is very handsome in appearance.
Mr. Frazer is an architect who under-
stands his business.

The Churches.
Services will be held as usual at St.
Patrick's Church, to-morrow.

Rev. A. Boring will preach at the M.
E. Church, to-morrow at the usual hour.

Rev. S. B. Alderson will preach at the
Presbyterian Church to-morrow morning
and evening.

The usual services will be held at the
M. E. Church, South, to-morrow morn-
ing and evening.

Rev. J. T. Hendrick will preach to
morrow morning and evening at the
Presbyterian Church, Third street.

Rev. W. T. Jolly will preach in the Baptist
Church to-morrow at 11 o'clock and
7 o'clock in the evening. Everybody is
invited.

Never mind the snow; overshoes are
cheap. There is, therefore, no good
reason why you should not go to church
and to-morrow.

Rev. A. N. Gilbert will preach at the
Christian Church to-morrow morning.
At the second lecture of the course on
"Great Reformers" will be given, the
special theme being "William Tyndale"
who, in 1526, gave to the English speak-
ing public the first printed new testa-
ment. So excellent was this translation
that the subsequent translators of King
James, and even the recent revised ver-
sion, are properly described as revisions
of Tyndale's work, simply with the in-
creased light arising from the possession of
older Greek manuscript. It is hoped
that every member of the church will
signify the first Sunday of the New
Year being in attendance both morn-
ing and night.

FOREIGN NEWS

CAMBR, Jan. 4.—Camille Bourges, French Consul General, has assured the Khedive that France is willing to act against El Mahdi if England decides not to.

ROWS, Jan. 4.—A letter has been received by Monsignor Bonaventure, Secretary to the Pope. It is purporting to come from a Fenian organization in America. The writer states that, if His Holiness continues to instruct the Catholic clergy in Great Britain to disengage from the aggressive policies of the National League, and otherwise indirectly aid and countenance England in opposing the Irish people, the priests of America, present and prospective, will let their displeasure be known. The letter says that the priests in America are determined to sustain the cause of Ireland against the tyrant of England. It is to Pope, requesting his full support, the National League will send a deputation to Rome who will, if necessary, demand that their views be heard.

ROM, Jan. 3.—At Epsom, the English representative at the Vatican, has submitted to the Pope additional proposals for reversing the Irish clergy from participating in political affairs.

Cairo, Jan. 4.—Following the policy recommended by the Khedive, the English officials in Egypt have signed their willingness to surrender a proportion of their salaries corresponding with the reduction suggested by the Khedive in the incomes of Egypt.

LONDON, Jan. 4.—The Queen has published another volume of leaves from her diary, kept during her sojourns in the highlands, covering the period from 1862 to 1868.

BERLIN, Jan. 4.—The Salvation Army has invaded Germany and is holding meetings in various parts of the Empire. Thus far the salvationists have not opened, notwithstanding their services, much discouragement. Dr. Stoecker has been using his influence to persuade them from coming to Germany, but obviously without success.

LONDON, Jan. 4.—The Times in reviewing the year, in the past, says that Mary Astor's personal charms and not her talents, have made her attractive, and characterizes the performance of Letta and Minnie Palmer as Buffoons.

DETROIT, Jan. 4.—It is reported that the Nationalists intend holding two large meetings next week at places not yet announced. The Orangemen are already arranging for counter meetings, and Government proclamation of both is expected.

Financial.

NEW YORK, Jan. 4.—Money on call loaned at 3% to 3.5% per cent. The stock market was active and displayed a decided strength than on any previous day of the week. There were several decisions during the day, the result of bear raids on certain leading stocks, but the market was also substantially recovering under the belief that the bears called a process of bidding up by bulls and interested parties. Conservative brokers, on the other hand, were of the opinion that the strength of the market was the result of trading at Burlington & Quincy will join the Union Pacific pool. The advance for the day ranged from 1/2 to 4 per cent., the latter in the case of the market. The speculations nearly all closed higher. There was a dearth of news on the street and the changes were mainly the result of trading.

Shall We Let the Child Die?

A hard-hearted political economist, looking at a pale and puny child feebly gasping as it lies upon a pillow, says that the child might as well die. It is so weak and poor that its life will never be worth much anyhow. There are already a good many people in the world who are of not much account anyhow. And what's the use of adding to their number another weakling, who has but slender chance of ever amounting to anything?

Now ask that child's mother what she thinks about letting the child die. A just and upright political economist had better get out of the way. "Let my child die?" No! "My child is a remedy to be found that will save that child, the child shall not die!" "I'll spend my last dollar to save the child!" Well, try a bottle of BROWN'S IRON BITTERS on that child. See the poor little fellow pick up strength. He revives. He will live. Hosts of other children have been brought almost from death to healthy life by Brown's Iron Bitters. Your druggist sells it.
